 25 July 44
(Date)

My dear Ray, You change your address so often I can't keep up with you, - so I'll address this to Monticello just to be sure that you get it. Before long you should be getting your wings and gold bars. Be sure you let me know all about it when it happens.

You probably read in the papers about what is going on right now. The events so far have made me think of you so thought I would write you a note while it was all going on. Would like to tell you all about it but that will have to wait.

What type of planes have you finally been assigned to fly. I agree that night fighters are good ships and probably very interesting but believe I would prefer the big boys. You are the one to be pleased that so hope you get your choice.

Sorry it has been so long since I have written. Will try to do better from now on.
 your devoted
 brother, Wilmer.
