Dear Folks:

"Luxembourg"

Just finished a three hour walk around this beautiful city of Luxembourg - really a nice and quiet place. They have electric trolleys and in very good condition - plus a suburban train - something like the old Chester Valley - which used to run right past our place - also have a good taxi-cab service and the cars are much better than the ones in London. The big shots ride around in big Buicks - 1940 - all in all a very prosperous city.

They have many beer gardens - the beer isn't too good - but the gardens are very nice and they have good service - many can speak English - have named some gardens after some of our big cities.

They are having a tea dance here this afternoon. The boys seem to be enjoying themselves very much - quite a few charming girls - dressed up and out on the make - plus free lemonade & coffee.

Haven't much more to say for now - really having a wonderful time - wishing all of you the same.

Loving brother, "Don"
